DETAILED ACTION

Applicants preliminary amendment canceling claims 4-5, 9, 15-17, 19, 27-29, amending claims 1-3, 6-14, 18, 20-26 and 30-34 and adding new claim 35, Paper No. 12. 12/24/2002, is acknowledged. Claims 1-3, 6-14, 18, 20-26 and 30-35 are present for examination.

Election/Restriction

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 1-3, 6-14, 18 and 20-22, drawn to an enzyme mixture comprising a first enzyme and a second enzyme, classified in class 435, subclass 194.
- II. Claims 23-35 drawn to method for DNA synthesis, classified in class 435, subclass 15.

The inventions are distinct, each from the other because of the following reasons:

Inventions I and II are related as product and processes of use. The inventions can be shown to be distinct if either or both of the following can be shown: (1) the process for using the product as claimed can be practiced with another materially different product or (2) the product as claimed can be used in a materially different process of using that product (MPEP § 806.05(h)). In the instant case, the enzyme mixture can be used in a materially different process such as one in which the enzyme mixture is used to mutate or synthesize polynucleotides or characterize the various domains of the enzymes.

Art Unit: 1652

Because these inventions are distinct for the reasons given above, have acquired a separate status in the art as shown by their different classification, and the literature and sequence searches required for each of the Groups are not required for the other Group, restriction for examination purposes as indicated is proper.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a petition under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(l).
